Re: Freedom of Information Act (FOIA) Request Number 10-RIN-76-87

Dear Mr. Zillich:

In my previous letter dated October 2, 1987, I provided you with a cost summary of the amount expended by EPA and its contractors at the Resource Recovery Pasco Sanitary Landfill site. As noted in that letter, these costs did not include EPA laboratory costs prior to 1986. We have recently received this information from headquarters. The total amount of laboratory cost has been identified as \$64,963. Added to the amount previously identified, \$360,000, the total expenses are \$424,963.

This completes the response to FOIA request Number 10-RIN-76-87.

Sincerely,

Philip G. Millam, Chief
Superfund Branch
